

have other underlying or chronic health conditions. For those who are at an increased risk that live in the City of Flint, GCHD suggests the continued use of bottled water.

Proper maintenance and disinfection of building water systems, hot water tanks, cooling towers, whirlpool spas, and decorative fountains are the most effective measures to prevent outbreaks.

GCHD has worked closely with the local medical centers to provide information about *Legionella* and clinical guidance about Legionnaires' disease. A Legionnaires' disease fact sheet is posted on the GCHD website at [www.gchd.us](http://www.gchd.us). GCHD continues to conduct surveillance for Legionnaires' disease cases.
