Re: **Speak to Your Health! Community Survey**

Genesee County residents have the opportunity to participate in a survey about their own health and the health of their community. The survey, called the *2015 Speak to Your Health! Community Survey* is sponsored by the Genesee County Health Department and a wide variety of partners. This is the seventh time that the survey is being conducted in an ongoing effort to monitor the health of Flint and Genesee County residents. This year, Genesee County residents have two ways they may participate in the survey: an online survey available on the mobile-friendly Genesee County Health Department website or a hard copy of the survey sent by mail. The Genesee County Health Department strongly encourages anyone who receives a postcard or a call to participate in the survey. Those interested in completing the online survey can visit www.gchd.us/speak.

Results of the survey are available to all Genesee County residents and can be analyzed by gender, race, age, and across time, and mapped geographically to determine trends by neighborhood, zip code, or county. Results from the survey can be used for health program planning and evaluation, grant proposals, community education, and policy development.
