RE: Kindergarten Readiness Clinic Hosted by Genesee County Health Department at Durant Tuuri Mott

Flint, MI -- Yes, the school year just ended, but did you know that children preparing for kindergarten this coming fall CANNOT enter kindergarten unless they have both their hearing and vision screened and are up-to-date with their immunizations? It is a fact! The state of Michigan requires all children who are preparing to enter kindergarten in the fall must have both their hearing and vision screened and all childhood immunizations up-to-date," said Genesee County Health Department, Public Health Supervisor, April Swartout.

To help parents through the process of preparing their children for kindergarten, the Genesee County Health Department will kick off the summer with kindergarten readiness clinic at Durant Tuuri Mott, or DTM," stated Swartout. Parents are encouraged to make an appointment, for both hearing and vision screening and immunizations, however, walk-in service will be provided on a first come, first served basis. To make an appointment for this readiness clinic for hearing and vision screenings call: 810.257.3193. To make an immunization appointment call: 810.237.4588.

Genesee County Health Department's DTM kindergarten readiness clinic is Wednesday, June 28. Clinic hours are 2:00 to 6:00 pm. Summer will be over before you know it! The Genesee County Health Department is here to help parents prepare their child for a healthy, happy, and successful school year. DTM School's address is 1518 University Ave, Flint, between Chevrolet and Cottage Grove Avenues.
